brand history.

Malin+Goetz is a luxury apothecary brand based in New York City. The first shop, which opened in 2004, is a modern interpretation of a traditional neighborhood apothecary. The store is full of activity, wonderful treatments, and has great customer service. Matthew Malin and Andrew Goetz live just around the corner and still personally wait on customers when they are in the shop.

Nine years later Malin+Goetz remains family-owned and operated, supplying quality products that simplify skincare for all skin types; especially the most sensitive. From London to Los Angeles, our products are now available in over 600 luxury retail locations around the globe. The first store in Chelsea has been joined by three other signature Malin+Goetz shops in New York and Los Angeles.

products.

FACE. BODY. HAIR. PERFUMERY. APOTHECARY.

Our natural based skin care formulas are effective enough to eliminate unnecessary steps, yet gentle and free of artificial fragrance and color.

While our treatment products are fragrance-free, we know people love an olfactory experience. Our collection of unique Eau De toilettes and Candles — from spicy, floral rose to exotic, seductive bay rum — provide the opportunity to tailor personal fragrance choices. You'll find our scents beautifully complement our botanical-based, naturally scented treatment products.

PETITGRAIN

A traditional, old-world distillation of an orange tree, petitgrain is a woody citrus favored by perfumers for its complexity. Our petitgrain eau de toilette plays up its sensual side, pairing the sparkling citrus with blooming florals, soft woods and a touch of warm musk. Highly aromatic, the fragrance embodies a sultry balance that's both modern and sophisticated.

TOP NOTES: bergamot, neroli and lemon petitgrain.

MIDDLE NOTES: lavender, cardamom, orange flower and orris.

BASE NOTES: orcanox, patchouli, vetiver, tonka beans and musk.

RUM, PEPPERMINT, VITAMIN B5, CILANTRO

Peppermint, Rum, Vitamin B5 and Cilantro are natural perfumes, provided with a single note. They are used for their specific therapeutic properties. Peppermint is well known for its natural purifying and stimulating effect on the scalp, as well as for being detergent and antibacterial. Mint is used for its holistic benefits. Rum Bay updates its traditional, pharmaceutical origin among the perfumes: it has been a pillar in those environments for centuries. By using it, the modern pharmacist mixes tradition and modernity.
